## ■ What is SuperPOS?

SuperPOS is a **modern, full-featured Point of Sale (POS) system** designed for supermarkets, retail stores, and multi-location businesses. Built with cutting-edge technology, it provides seamless operations both online and offline.

## ■ Core Features

### Point of Sale (POS)

- Barcode Scanning: 14+ format support
- Quick Checkout: Fast transactions
- Multiple Payment Methods
- Instant PDF Receipts
- Offline Transactions
- Easy Cart Management

### Inventory Management

- Real-Time Stock Tracking
- 6 Adjustment Types
- Store-to-Store Transfers
- Low Stock Alerts
- Complete Audit Trail
- Excel Import Support

### Product Management

- 16+ Product Categories
- EAN-13 Barcode Generation
- Image Support (S3 Storage)
- Multi-Currency Pricing
- Real-Time Availability
- Supplier Relationships

### Reports & Analytics

- 5 Report Types Available
- Excel & PDF Export
- Custom Date Filtering
- Store-Specific Analytics
- Performance KPIs
- Visual Dashboards

## ■ User Roles & Access

Role	Access Level	Key Permissions
Admin	Full Access	All features, settings, users
Manager	High Access	Products, inventory, reports
Cashier	Limited	POS, sales, basic dashboard
Inventory Clerk	Moderate	Inventory, stock, suppliers

### Test Credentials:

- **Admin:** admin@pos.com / admin123
- **Manager:** manager@pos.com / manager123
- **Cashier:** cashier@pos.com / cashier123
- **Clerk:** clerk@pos.com / clerk123

## ■ Deployment Options

### Web Application

- Live URL: <https://superpos.abacusai.app>
- Access: Any modern browser
- Requirements: Internet connection
- Features: Full functionality

### Progressive Web App (PWA)

- Installation: One-click from browser
- Offline Mode: Full functionality
- Mobile Support: iOS and Android
- Native Feel: App-like experience

### Desktop Application

- Platforms: Windows, macOS, Linux
- Offline-First: Local PostgreSQL
- Native Installers: .exe, .dmg, AppImage
- Sync: Optional cloud sync

## ■ Available Tutorials

### **Complete Demo Tutorial (26 KB PDF)**

- System overview and features
- Step-by-step instructions
- Best practices and tips

### **Screenshot Walkthrough (110+ Pages, 10.8 MB PDF)**

- 103 annotated screenshots
- Every feature documented
- Professional layout with TOC

### **In-App Walkthrough (Interactive)**

- 10 guided steps
- Auto-start for new users
- Manual restart option

### **Markdown Guides (Text-based)**

- Quick start guides
- Feature overviews
- Technical details

### **Desktop Build Guide (Technical PDF)**

- Build instructions
- Platform-specific steps
- Deployment guide

## ■ Quick Start Guide

### Step 1: Access the System

URL: `https://superpos.abacusai.app`

Login: `admin@pos.com`

Password: `admin123`

### Step 2: Complete the Walkthrough

- Wait for auto-start (1.5 seconds)
- Or click 'Start Tour' button in sidebar
- Follow 10 interactive steps

### Step 3: Explore Features

1. **Dashboard:** View sales metrics
2. **POS:** Process a test transaction
3. **Products:** Browse product catalog
4. **Inventory:** Check stock levels
5. **Reports:** Generate analytics

## ■ System Statistics
